Switch Puller
USB Type C cable

INSTALARE SWITCH-URI

- Verifică dacă toate pinii metalici ai switch-ului sunt perfect drepte
- Aliniază switch-ul vertical.
- Apasă switch-ul în jos până auzi un clic. Acest sunet indică faptul că pinii switch-ului s-au fixat pe placa tastaturii.
- În cazul în care switch-ul nu funcționează, verifică din nou pinii metalici.

ÎNDEPĂRTEAZĂ SWITCH-URILE

- În switch puller-ul și aliniaza „dinții” de prindere vertical (pe axa Y), în centrul switch-ului, așa cum este ilustrat în exemplul grafic de mai jos.
- Prinde switch-ul cu extractorul și aplică presiune până când acesta se desprinde de pe placă.
- Folosind o forță fermă, dar delicată, trage switch-ul în sus, pe direcție verticală, pentru a-l îndepărta de tastatură.
